ABOUT LIAM CONNECT

A NY-based start-up focused on delivery advanced technological solutions to the corrections sector.

Our first product is LIAM Safe, a cloud-based, fully encrypted, digital delivery system that provide 100% safe and secure hardcopy letters and color photos to inmates that offers superior benefits for institutions and inmates alike.

LIAM = Live Intelligent Automated Mail.

For those of you fully caffeinated, you'll realize It's also MAIL spelled backwards.

LIAM SAFE BENEFITS

1. Completely and 100% free to approved facilities for as long as you use it.
2. Requires zero training and absolutely minimal maintenance.
3. Using LIAM Connect requires less personnel to handle mail thus saving time and putting your correctional officers back into correctional work. All photos and letters print right in your mail room.
4. Unlike tablets, LIAM Connect is 100% hack-proof and doesn't require daily inventorying, repair, storage, sanitizing, etc.

CONNECT

LIAM SAFE BENEFITS

5. Unlike regular mail or third-party remailing/scanning companies, all letters and photos are 100% contraband free, keeping your officers safe from accidental exposure to hazardous substances like fentanyl.

6. Without a doubt, LIAM Safe's Dashboard provides superior intelligence gathering and archiving of mail/photos that includes:

- Unlimited keyword and inmate alerts. You can plug in a gang name or acronym or nickname or an inmate number and the system will flag every single instance it appears and create a notification alerting you to the fact. The time savings alone is remarkable. The letter or photo will not be downloaded until approval is given by you.
- Intelligence is easily shareable with other law enforcement units (drug units, gang units, etc.) or agencies (DEA, FBI, local PD, etc.)
- Easily identifies associations between inmates and those on the outside, which is often critical to building cases, identifying networks, etc.

LIAM SAFE BENEFITS

7. LIAM Connect provides hard copies of letters and color photos (on real photo paper) almost instantaneously from when they were uploaded. Having a hard copy to look at does wonders for inmates' mental health & behavior which in turn benefits your officers.

8. LIAM Connect is demonstrably cheaper than every option currently available, including the US Postal Service. Two page letters are just \$0.60 and each high quality photo is \$1.19. That low cost enables families to communicate more frequently and in nearly real-time so again, inmates are more strongly connected to their families which can positively impact their behavior.

9. Finally, LIAM Connect offers a revenue sharing model that can help turn your mail room into a small profit center depending on the size of your institution.
